Dear Mr. Fulgrum:

I read with great enthusiasm your article on Elephant tokens in CNL and appreciate all of the work you have done. You asked for others to join the hunt and I presume you mean to furnish further data.

You may not be aware of the article I published long ago in The Numismatist entitled "An Elephant Token Never Forgets".

You are probably unaware that we have the unique London Elephant in brass as you do not mention it. It has a heavy planchet crack.

We have an ER which is in fair condition having been gold plated once, but most of the gold was removed by acid.

We have a choice<sup>OR</sup> piece and a few London Elephants.

Our junk box includes:

Bolen, Carolina, Unc. Red  
Capital City Carolina fake with COPY on edge (1964)  
Electro Carolina O over E.  
Peter Rosa (d.b.a. Becker) Carolina forgery # 143 cast and plated.  
Robinson NE copper Unc. Red  
Robinson NE copper nickel Unc.

I hope this is helpful.

Sincerely,

Eric P. Newman
